

STEM PROGRAM TOPICS

Science. Art. Tinker

Come tinker, think, design and create in our new STEM space! Options include KEVA building, marble maze tinkering, wind tunnel exploration or quilting tessellations.

Grades: K-5

Cape Lookout Excursion

Come explore the Outer Banks with us and learn about local marine science, coastal history and local culture.

Grades: K-7

Please note that additional charges apply for this program due to ferry and NPS fees.

Maritime Forest Ecology

This indoor/outdoor program allows students to discover the ecology of local forests, learn about local flora and fauna, and explore seed dispersal in our wind tunnel.

Grades: K-5

Water Explorations

Join us on a Willow Pond Excursion! Options Include: collecting and identifying aquatic insects, learning about pond ecology, conducting buoyancy experiments at our water tables, and more!

Grades: K-5

Students should be prepared for outdoor exploration.

Waterfowl World

Discover the natural history of local waterfowl and food webs. Students will use microscopes to understand why waterfowl are amazing and also learn about local carving and culture.

Grades: K-5

Discover the wonders of coastal North Carolina with us!

The Core Sound Waterfowl Museum & Heritage Center's new STEM (Science, Technology, Engineering, and Math) exhibits and programming offer a variety of fun and engaging ways for your students to explore coastal ecosystems, local flora and fauna, and Down East culture.

Book your program today and have fun exploring with us!

ADDITIONAL INFORMATION

- All NC school groups (including chaperones) receive free admission to our programs and museum.
- Programs are tailored to your class' grade-level and cover NC Core Curriculum STEM standards. For more information visit www.coresound.com.
- Pre-registration is needed for all programs: teresaeverett@coresound.com (252-728-1500, ext. 24).

We cater our STEM programs to your grade level!

Choose a program from our list of five topics. The activities described for each topic represent options to choose from -- your specific program will depend upon season, amount of time, and grade-level.

Core Sound Waterfowl Museum & Heritage Center is a not-for-profit organization that envisions coastal communities of eastern North Carolina in which culture, community, education, economy and the environment are fully integrated for a high quality of life for all residents.

MUSEUM HOURS
